### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's response filed on 1/21/2005 has been carefully considered. Applicant's argument is persuasive. Applicant states that the second transistor is not essential to the operation of the trolling motor or the reverse battery protection of the invention. Claims 1-4 have been carefully reconsidered in light of the specification further in view the figure 7 of the invention. The references of the record fail to teach or suggest the configuration of the field effect transistor and its operation as recited in claim 1 the same as shown in figure 7 of the invention..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
